

Who We Are.

IONO, Inc.

IONO is a Hybrid Cloud Solutions Provider partnering with public/private IaaS/PaaS providers such as **AWS, Microsoft Azure and Zenlayer** for a robust, secure, scalable solutions deployment.

IONO is also a **VMware Premier Partner** headquartered in Silicon Valley, CA, since 2014. The founders of IONO are alumni of VMware and have extensive experience in building complex cloud solutions. IONO has been providing hybrid cloud solutions to enterprises of all sizes, verticals and geographical regions in the USA and internationally.

IONO has delivered **complex Cloud Solutions** and VMware based solutions to SLED (State, Local Government & Education) community as well. These include VMware vSphere Core, build VMware-based IaaS and PaaS platforms on traditional and HCI hardware, End-user computing and Software Defined networking (NSX). In the hybrid cloud space, IONO has built deployments of workloads to public clouds from On-Premises single pane of control managed by IT.

IONO as a company has been certified for building and delivering Hybrid Cloud solutions by VMware. IONO is one of a dozen companies to have achieved this certification. Here is the link to VMware's website <https://www.vmware.com/solutions/software-defined-datacenter/validated-designs.html>.

Hybrid Cloud & Automation

- Self Service Catalog
- Automated Provisioning
- Cost Management
- Micro Segmentation
- Network Virtualization

DevOps Infrastructure

- Increase Release Velocity
- Higher Quality Code
- Optimized Model
- Automated Lifecycle
- Automate App and Platform Deployment
- Improve & Automate Testing
- Automate App Deployments

Security, Compliance & Threats Management

- Intelligent Software
- Automated Services
- Big Data
- Machine Learning
- Predictive Analytics
- Proprietary Algorithms

Digital Workspace & VDI Solutions

- Unify App/Access Management
- Unify Endpoint Management Across All Devices
- Transform Windows Delivery as a Service

VMWARE CPA - CERTIFIED PARTNER ARCHITECTURE
